#### Discussion:

Mrs. Hartley reviewed the Financial Statements and Cash Balance ending October 31, 2022.

Dr. Haines reviewed Accountability Practices. Marshall County Schools received the WVDE balanced scorecard indicators of student performance and success as well as the county operational effectiveness indicators. In the areas of student performance and success, Marshall County is rated "on watch" for math achievement and student attendance. Mr. Storm has presented the general summative assessment scores to the board earlier this school year and recognized that the performance level in Math is 50.0% and should be above 50%. Dr. Haines presents attendance reports quarterly to the board and each school continually works on improving student attendance. It has been reported nationwide that post Covid school attendance is a problem. In the areas of operational effectiveness Marshall County Schools meets all requirements in all 11 areas.

#### Superintendent's Report

Dr. Haines recognized the hard work of all of the faculty and staff throughout Marshall County Schools. We have a lot to be Thankful for in our schools and community. Our employees are much deserving of the holiday break.
