Calculation of Substitute Teachers' Pay

West Virginia Code 18A-4-7

After 10 consecutive instructional days in the same position: Paid at the daily rate of the advanced salary teaching experience. This is the state minimum salary based on the substitute teacher's degree AND years of experience; see above schedule.

20 - 35 years includes the \$600 state bonus

After 30 consecutive instructional days in the same position: Paid at the daily rate of the advanced salary, which includes equity and the county supplement, based upon teaching experience. This is the substitute teacher's degree and years of experience according to the daily rate of Marshall County's Professional Salary Schedule. (State minimum + County supplement) at substitute teacher's degree and years of experience = Substitute's salary

PRINCIPAL SALARIES SCALE/INDEX
2023 – 2024**

Policy: Determination of Enrollment as it relates to setting principal salaries

The enrollment figure to be utilized in the computation of a principal's salary for the current fiscal year shall be the active enrollment for the second month of the preceding fiscal year for the school in which the individual involved is principal.

When consolidation or realignment of attendance areas is a factor, then the recommendation of the Superintendent shall be used. This recommendation shall be based on projected estimates and will be utilized as a base until a base can be established by the previously described means.

Provided the principal remains as principal in the school in which employed during the previous year's regular school term, a decrease in pupil enrollment and/or a decrease in the number of teachers shall not cause a reduction in the principal's salary or the number extended days employed. This moratorium on salary decrease shall remain in effect for four (4) years. At the beginning of the fifth year, salaries will be calculated according to the first paragraph of this policy.

MARSHALL COUNTY SCHOOLS
ADMINISTRATIVE PAYROLL PROCEDURES

The salary for county office administrators will be determined by multiplying the Marshall County salary for a teacher at the years experience (minimum 20 years) in accordance with the classification of certification (minimum MA+45) by the appropriate percentage as follows:

Assistant Superintendent	35%
Business Manager/Personnel Director	30%
Director of Programs	25%
Coordinators	15%

The above calculated amount covers a 10 month employment term. Extended employment will be paid at the same daily rate.

All other professional employees will be paid at the Marshall County salary for a teacher at the years experience in accordance with classification of certification adjusted for days in excess of 200 per their contract. Note that years of experience will be determined by a committee consisting of the Superintendent, Personnel Director, and Business Manager.

Administrators holding or obtaining a national certification in the area in which they are employed will receive a \$2,000 supplement to their calculated salary.
